

The new Panasonic KX-NT265 IP Proprietary telephone comes with a host of top functions including one-touch access to Panasonic Hybrid IP PBX features. With eight (8) programmable keys supporting dual-colour LEDs, 16-character LCD display showing CallerID or Date and time - this telephone makes for a perfect cost effective IP terminal. The phone even has an adjustable tilt angle that assures comfortable viewing.

* Built-in feature keys.

16-Character LCD Display

LCD Display: 72 x 14.5 (WxH)(mm)

The one-line 16-character display switches to show either the caller's name or telephone number* keeping you better informed when answering customer calls. It also shows the date and time, call log, call duration, and other useful information.

* To see the caller's name - the name and number must be registered in the PBX.
To see the caller's number subscription to Caller ID service is required.

Hands-free Convenience

The built-in headset jack allows for hands-free operation giving more freedom and flexibility when answering calls. Users can work on their computer and take important notes while handling important calls.

Programmable Keys with Dual-Colour LED

The eight (8) programmable keys can be assigned various PBX functions such as Call Forward (FWD), Do Not Disturb (DND), and Conference. Each lamp has a dual-colour LED that shows the line status, extension status, and other related information.

Message / Ringer Lamp

The large lamp that is viewable from a distance - flashes red to indicate when a call comes in and lights up as red to indicate when someone has left a message - allowing for intuitive operation.

Hands-free Speakerphone

The built-in speakerphone allows two-way, hands-free communication at the touch of a button. Speakerphone conversation can be cancelled by pressing the same button or continued privately by lifting the handset.

Tilt-Angle Adjustment

The telephone adjusts to either of two angles for easier use and a smaller, space-saving footprint.
