

The new Panasonic KX-T7668 business telephone comes with a host of top functions including one-touch access to Panasonic Hybrid IP PBX features. With eight (8) programmable keys supporting dual-colour LEDs, new larger 16-character LCD display showing CallerID or Date and time, and a digital XDP (eXtra Device Port) - this telephone makes for a perfect cost effective terminal. The phone even has an adjustable tilt angle that assures comfortable viewing.

* Built-in feature keys.

16-Character LCD Display

The new larger one-line 16-character display switches to show either the caller's name or telephone number* keeping you better informed when answering customer calls. It also shows the date and time, call log, call duration, and other useful information.

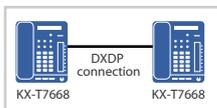

* To see the caller's name - the name and number must be registered in the PBX. To see the caller's number subscription to Caller ID service is required.

Programmable Keys with Dual-Colour LED

The eight (8) programmable keys can be assigned various PBX functions such as Call Forward (FWD), Do Not Disturb (DND), and Conference. Each lamp has a dual-colour LED that shows the line status, extension status, and other related information.

Digital XDP for Expansion

The Digital XDP (eXtra Device Port)* allows customers to increase the number of digital telephones by installing a second telephone connected to the first - without the need for installing any additional optional line cards in the PBX.

* Digital XDP is only available with KX-TDA series version 1.1 or later.

Hands-free Convenience

The built-in headset jack allows for hands-free operation giving more freedom and flexibility when answering calls. Users can work on their computer and take important notes while handling important calls.

Message / Ringer Lamp

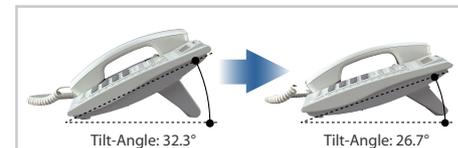

The large lamp that is viewable from a distance - flashes red to indicate when a call comes in and lights up as red to indicate when someone has left a message - allowing for intuitive operation.

Hands-free Speakerphone

The built-in speakerphone allows two-way, hands-free communication at the touch of a button. Speakerphone conversation can be cancelled by pressing the same button or continued privately by lifting the handset.

Tilt-Angle Adjustment

The telephone adjusts to either of two angles for easier use and a smaller, space-saving footprint.

* Black models also available.
